Masimo Technical Services has won the 2011, 2012, 2013, and 2014 NorthFace Scoreboard Awards. This award is presented annually by Omega Management Group Corp. to recognize organizations that not only offer exemplary customer service but who are also committed to and are successful in exceeding their customer's expectations. "Due to its unique 'customer only vote' criteria, the NorthFace ScoreBoard Award has been viewed as the only objective benchmark for excellence in customer service"

Protect Your Investment

In today's fast-paced medical environments, accidents happen and equipment can easily become damaged. Because caregivers and patients depend on that equipment, downtime must be kept to an absolute minimum. Masimo offers multiple service options to meet all of your support needs.

- > **Protection+ for devices (PN 8010)**— Complete coverage for all Masimo devices, giving you peace of mind for those frequent, unpredictable incidents.
- > **Protection+ for SafetyNet (PN 2458)**— Expanded coverage to keep your Patient SafetyNet system in top form and always up to date.
- > **Out of Warranty Repair (PN 3038)**— All out-of-warranty repairs are completed at one low flat rate, eliminating the time that a device is out of service waiting for a repair quote.
- > **Masimo's Extended Warranty (PN 3415) devices or (PN 8013) SafetyNet**— Simply extends the standard one-year manufacturer's warranty. You may purchase an extended warranty at any time.
- > **Expedited Replacement (PN 2545)**— For those situations where you need a device in less than the standard turn-around time, we can expedite your repair. This low cost, per-event charge allows you to receive a fully refurbished replacement or a loaner unit shipped the next business day.

Protection+

In addition to the standard one-year limited warranty that comes with all Masimo products, additional protection is available with Protection+, which is purchased with the device or system. Protection+ is designed to maximize product uptime, improve efficiency, and protect your budget from unpredictable repair costs.
